CAREER SUMMARY

Over the past 3 years, I have honed my skills as web developer, gaining valuable experience and expertise in various technologies and framework. I have worked on a wide range of projects, from building responsive and user-friendly websites to developing dynamic web applications.

During this period, I have become proficient in front-end technologies such as HTML, CSS, JavaScript, and popular frameworks like React. I have also delved into back-end development, working on PHP, and databases like MySQL. I also have a wide range of knowledge in Git & GitHub, and the skill in deploying websites on hosting platforms.

EXPERIENCES

NEW DAWN ULTRASOUND DIAGNOSTICS CENTRE Jun 2023- Present MEDICAL WEBSITE DESIGNER & DEVELOPER

- Created a visually appealing and user-friendly website design that represents the services of the diagnostics centre offers. Developed an informative and engaging content, including details about the centre's services, contact information, and relevant medical information
